

SAFETY INFORMATION

Please read and understand this entire manual before attempting to assemble, install or operate the product.

WARNING

- RISK OF ELECTRIC SHOCK - Before beginning installation, turn off electricity at the circuit breaker box or the main fuse box.
- RISK OF FIRE - Use bulbs specified by the markings and/or labels on the fixture.

CAUTION

- For your safety, read instructions completely before beginning installation.
- If in doubt about electrical installation, consult a licensed electrician.
- Turn off electricity to fixture before replacing the bulb(s).

TOOLS REQUIRED

CARE AND MAINTENANCE

- Wipe clean using soft, dry cloth or static duster. Always avoid using harsh chemicals and abrasives to clean fixture as they may damage the finish.

If you need further assistance call Quozel Customer Care at 1-800-645-3184 (9:00am - 5:00pm EST), or visit us on-line at www.quezel.com.

PACKAGE CONTENTS

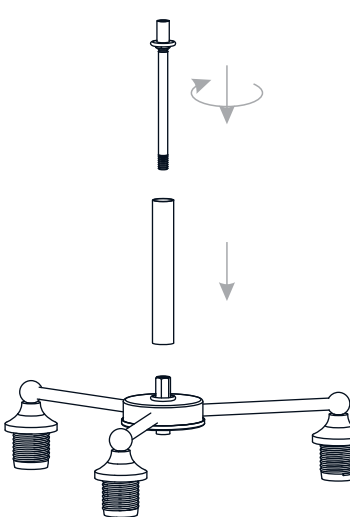

MOUNTING HARDWARE

INSTALLATION

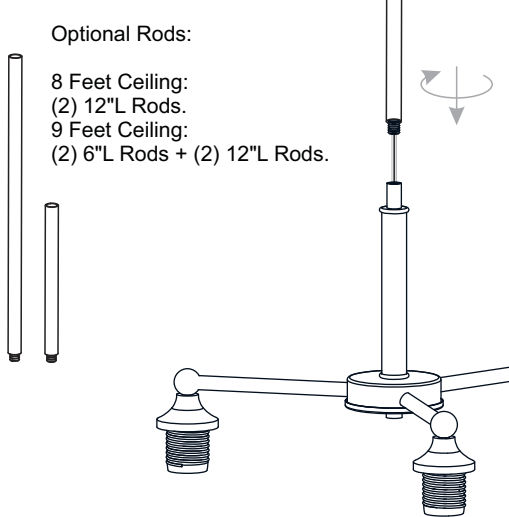

1 Install Center Stem to Fixture Body

The diagram shows a long, thin center stem being inserted into the top of a circular fixture body. The fixture body has three curved arms extending outwards, each ending in a socket for a light bulb. Arrows indicate the stem is pushed down into the fixture.

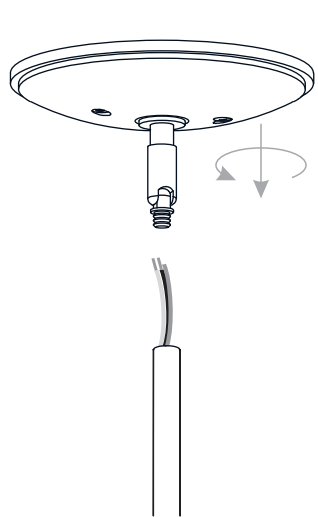

2 Install Rods

Optional Rods:
8 Feet Ceiling:
(2) 12"L Rods.
9 Feet Ceiling:
(2) 6"L Rods + (2) 12"L Rods.

The diagram shows two rods being inserted into the center stem. One rod is shown being inserted into the stem, and another is shown next to it. The fixture body is shown below, with the stem and rods extending upwards. Arrows indicate the rods are pushed down into the stem.

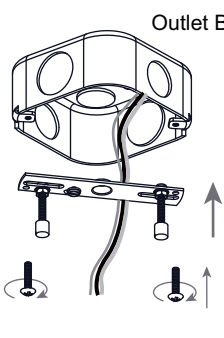

3 Install Ceiling Canopy to Upper Rod

The diagram shows a circular ceiling canopy being attached to the top of the upper rod. The canopy has a central hole and a threaded opening. The rod is inserted into the hole, and the canopy is pushed down onto it. Arrows indicate the canopy is pushed down and rotated.

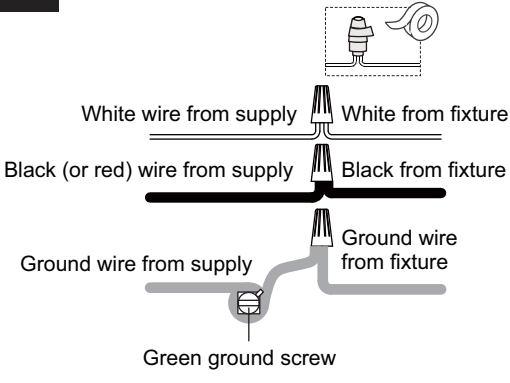

4 Install Crossbar Assembly

Outlet Box

The diagram shows a crossbar assembly being attached to an outlet box. The crossbar has two sockets for light bulbs. The outlet box is shown with the crossbar being inserted into it. Arrows indicate the crossbar is pushed into the outlet box.

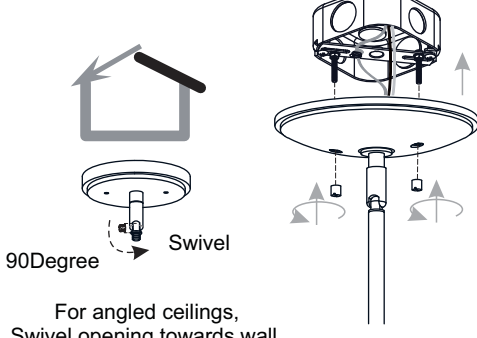

5 Wiring

The diagram shows the wiring connections between the supply and the fixture. It includes a white wire from the supply connected to the white wire from the fixture, a black (or red) wire from the supply connected to the black wire from the fixture, and a ground wire from the supply connected to the ground wire from the fixture. A green ground screw is also shown.

White wire from supply White from fixture
Black (or red) wire from supply Black from fixture
Ground wire from supply Ground wire from fixture
Green ground screw

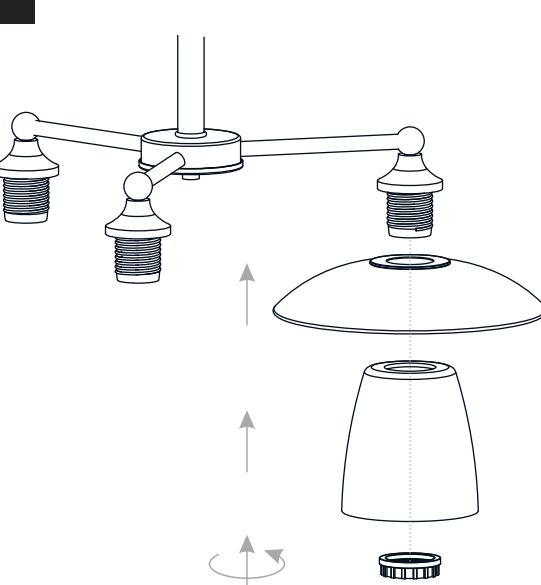

6 Install Ceiling Canopy to Crossbar Assembly

The diagram shows the ceiling canopy being attached to the crossbar assembly. The canopy is shown being inserted into the crossbar assembly. Arrows indicate the canopy is pushed into the crossbar. A 90-degree swivel is shown, indicating the canopy can be rotated. For angled ceilings, the swivel opening should be towards the wall.

90Degree Swivel
For angled ceilings,
Swivel opening towards wall.

7 Install Shades

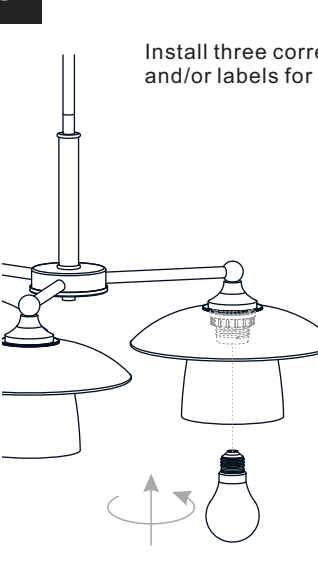

The diagram shows the shades being attached to the fixture. The shades are shown being inserted into the sockets of the fixture. Arrows indicate the shades are pushed into the sockets.

8 Install Bulbs

Install three correct bulbs referring to fixture markings and/or labels for maximum wattage.

Recommended Bulb Type (not included):

The diagram shows the bulbs being installed in the fixture. The bulbs are shown being inserted into the sockets of the fixture. Arrows indicate the bulbs are pushed into the sockets.

BULB BASE TYPE Medium (E26) BULB TYPE TYPE A
100W MAX

Your installation is now complete! Restore electricity and save this sheet for future reference.
